คุณไม่ได้รับอีเมลจาก gecd.adm@tmd.ac.jp บ่อยนัก เรียนรู้ว่าเหตุใดสิ่งนี้จึงเป็นสิ่งสำคัญ

Dear Partner Universities,
(Please forward this email to the person in charge of sending your students overseas for electives and research for non-degree. As a partner university, if you have any concerns regarding the schedule or process, please let us know.)

Greetings from Yushima International Exchange Support Group, Institute of Science Tokyo.
We would like to express our sincere gratitude for your continued support and collaboration.

The basic process of accepting your students for electives or research for non-degree has been changed. With new schedule, the entry starts approximately 9 months prior to acceptance. Please refer to the website regularly for future schedule.

https://www.tmd.ac.jp/english/international/prospective/International_Visiting_Student/

Because this is the first application cycle under the new schedule, we would like to take this opportunity to notify you about the opening of the application period. Moving forward, we kindly ask you to refer to our website for updates and details.

Now, we officially opened the application period for international students who wish to visit our university as an International Exchange/Visiting Student for the 2025 Fall Semester (from October 2025 to March 2026).

For further details regarding the application process, eligibility, and other relevant information, please kindly refer to our university's website:
<https://www.tmd.ac.jp/english/international/prospective/International_Visiting_Student/>

*Please note that students who are currently in the process (students who have been assigned an Entry Number) do not need to re-enter their application.

We look forward to continuing our strong partnership and appreciate your kind support.

Sincerely,
Koki

[General information](#)
[Application process and document submission deadlines](#)

Science Tokyo accepts students from outside Japan who are studying Medicine, Dentistry, Health Care Sciences, or Oral Health Care Sciences for short periods (1 year or less, non-degree). Interested students can find useful information on this page.

If you wish to apply for clinical electives at Science Tokyo in the fields of Medicine, Dentistry, Health Care Sciences, or Oral Health Care Sciences, please carefully review the following information and application schedule and ask your university coordinator or student support personnel to use the link below to submit an Entry Form.

General information

Purpose of Visit	Eligibility Criteria	Duration	Placements
Clinical Elective in Medicine	Students who are in the final year of medical school at the time of the elective or who already have clinical training.	2 weeks or 4 weeks	Available from October to March
Clinical Elective in Dental	Undergraduate Students in Dental School	1 week	Year round
Research and others	Those who have "student" status (Undergraduate / graduate students)	1 year or less	Year round

*Applicants must complete their studies at their home university or institution after the period of study in Japan.

Clinical Electives in Medicine

Science Tokyo offers clinical clerkships in Medicine, where participants can observe the daily routine in an outpatient clinical setting, attend conferences, and take part in other activities (exact activities may vary depending on the affiliated department). Please note that medical records and communication with patients will only be written or conducted in Japanese.

Clinical Electives in Dentistry

Science Tokyo offers clinical dentistry observerships. Participants can observe the daily routine in an outpatient clinical setting and hospital wards (exact activities may vary depending on the affiliated department).

Tuition

- Tuition fee: 29,700 JPY / month (*Fees for partner university students will be based on the partner agreement terms)
- These fees do not include accommodation, travel, or daily living costs in Japan.
- Tuition fees must be paid in cash on the first day of your visit to Science Tokyo.

Visa and status of residence

- For information on visa requirements, please visit [the Ministry of Foreign Affairs of Japan](#) or consult with the Japanese Embassy in your country of residence.
- Science Tokyo will not provide advice regarding a student's visa status or requirements.

Accommodation & transportation

Science Tokyo does not provide accommodations for international exchange and visiting students. Students are responsible for their own living arrangements and transportation to and from the university.

Immunization records

Students are required to comply with Science Tokyo's [guidelines for immunization compliance](#) and must submit relevant records of vaccinations or other documentation regarding measles, rubella, varicella, mumps, hepatitis B, and tuberculosis.

Insurance

- Students are required to purchase international travel and health insurance before arriving in Japan.
- In addition, all students are required to purchase accident (Course A of the "Personal Accident Insurance (GAKKENSAI 学割)") and liability insurance (Course C of the "Liability Insurance Coupled with Gakkensai (Futaibajiseki 学割)"). Science Tokyo offers both insurance policies for international students, and the enrollment process can be completed after arriving in Japan.

≡ Campus Information

Yushima Campus map: <https://www.isct.ac.jp/en/001/about/campuses-and-offices/yushima-and-surugadai>

≡ Note

- Science Tokyo does not offer internships for international exchange / visiting students.
- Science Tokyo will not draft any documents and/or sign or seal any forms other than a Certificate of Acceptance and Evaluation Sheet.
- Students are not eligible to register for regular courses to receive academic credits.

Application process and document submission deadlines

≡ Application schedule

Please make sure to carefully review the schedule below before proceeding with the application process.

The image is a screenshot of a calendar or schedule table. It shows a grid of dates with various entries, likely representing application deadlines and key dates for international exchange and visiting students. The text is small and difficult to read, but it appears to be a detailed schedule.

≡ Entry Form

Entry Form for International Exchange/Visiting Students :

- The Entry Form must be completed by a university coordinator or student support personnel, not by the student themselves.
- Application documents are NOT available for download. Please note that Science Tokyo will not accept any requests or applications directly from students and without approval from their home institution.
